PROFILE

I am a hardworking and versatile front-end web developer with a passion for building user-friendly and responsive designs. I am skilled in HTML, CSS/SASS and Javascript, and am currently actively developing my skills in Git, Typescript, Bootstrap 5 and React. I possess excellent problem solving abilities, a strong work ethic, and a desire to learn new skills.

PORTFOLIO

(Available at www.alexcassin.co.uk)

Filmby's - Movie Review Website

- Filmby's is a website that allows users to view critics' ratings of movies, as well as give their personal ratings and build their own ranked list of their favourite movies.
- Written using HTML, CSS/SASS and JavaScript, using an MVC style architecture and including ES6+ features (promises & async/await, classes, modules, etc).
- Helped me to gain experience in AJAX as well as API calls and handling the data from them.

Forever Flora - E-commerce Website

- Forever Flora is a demo e-commerce website I built for a terrarium business I started in late 2021.
- Written using HTML, CSS/SASS and JavaScript.
- Allowed me to develop my skills in creating responsive sites using CSS media queries, SASS mixins and JavaScript event listeners.

Personal Profile Website

- I built this site as a personal profile page, where users could view information about me, my coding experience, and the projects I have developed.
- Written using HTML, CSS/SASS and JavaScript.
- Helped me develop my UX/UI skills when it comes to designing web pages, and creating a site whilst working off a set design.

SKILLS

- Writing semantic HTML markup.
- Using CSS and SASS to create stylish and responsive websites.
- Programming efficient and clean JavaScript, using modern ES6+ features when appropriate.
- Designing user-friendly and modern web pages with user interface design apps such as Figma.
- Basic maintenance of version control using Git.
- Fast learner.
- Excellent communication skills (including telephone manner).
- Effective team player.
